Professional Profile

I am a front-end developer with 8 years of experience, four of them in Malta working at betting companies. I have also worked as a freelance, and even in a small company created with some colleagues and me.

I am very focus in user experience and very detailed in graphics and DOM interaction. However, I keep constantly updating with latest technologies.

I am very passionate about CSS and my goal is to become top 1000 in Spain as a CSS developer.

Official Training

Professional Certificate in Applications Development using Web Technologies
